LIND'S CASE NOT AGAINST COMPANY

Providing the counsel are ready at that time, the trial of the case of H. B. Lind against W. B. Weber and J. R. Davis, for a third interest in the Nevada Hills, will come up before Judge Stevens on June 1. Lind claims that this interest is due him by virtue of a grubstake. The action in no way affects the Nevada Hills or the deal by which George Wingfield acquires control at the rate of \$1.25 a share. Should Lind win out he would simply be given the stock in the company now held by Weber and Davis as individuals. The corporation itself would not be affected. It is now reasonably certain that Wingfield will exercise his option on the property before his return from New York, the first week in the coming month.

GREAT ROCK FROM EAST WALKER DISTRICT

A. Cameron and C. Breemer, who are prospecting to the south of Yerington, were in town this week and had some rock samples on exhibition at the Commercial hotel that was sure bonanza ore. Messrs. Breemer and Cameron are located on the East Walker, about three miles southwest of the Charlebois ranch. They have five claims and on one of them a shaft has been sunk, and they have been sinking in ore from the start of a \$14 grade, but in the last few feet the ore has increased wonderfully in richness. The contact is granite and basalt, the former being the footwall. The bottom of the shaft is all in ore that assays \$93.91 in gold and 4.22 ounces in silver. When washed in a horn the pulp leaves a trail of gold over an inch long. The finders are naturally jubilant over the outlook and feel warranted in prosecuting further development.—Yerington Times.

A NEW FANGLED POWDER THAWER

Frank M. Randolph has applied for a patent on a new powder warming machine, which will prevent accidents in thawing out the dangerous stuff. The machine is made the same as a cartridge belt, only that the pockets are large enough to each hold a stick of giant powder. Before going on shift the belt is filled with powder and buckled around a good big dog. The warmth of the animal's body thaws out the powder and when the miner needs some of the explosive all he has to do is to whistle for the dog. Of course if the canine is off chasing rabbits the miner will have to make out a delay report.—Bodie Miner.

POUND THEIR OWN DRILLS.

There are a good many things doing about Rhyolite that are not heralded, and a good many storkes delivered. The leasing campaign now under way is the best the Bullfrog has seen. It is natural and logical, but keeping in close and of expending money on the earlier locations without regard to the excitement and rushes in particular parts of the surrounding country. This guard of the faithful have been augmented by much new blood in the recent past. A greater part of these industrious fellows that pound their own drills, are making big money and clean money. There is enough ore in sight within a mile of the Rhyolite post-office to pay the price of all ill-considered promotion many times over.—Bullfrog Miner.

MULE BRAYS REVEILLE.

BREMERTON (Wash.), May 25.—An army mule, which recently joined the navy has been causing the members of the marine corps here considerable bother of late and is now tied at a remote corner of the yard,

where he is obliged to behave himself.

The government recently purchased two mules and a horse to be taken to Guam on the United States ship Supply, which is now at this yard undergoing repairs. The animals were delivered here a few days ago and have been allowed to graze at pleasure about the navy yard.

A few mornings ago the marines at the barracks heard reveille blown on the bugle, which is official notification to get up and go to breakfast. They piled out of bed and dressed, but on looking at their watches found that they were up two hours ahead of time.

On investigating they found that the mule had wandered in back of the marine barracks during the night in search of fresh fodder, and, finding no grass there, he brayed a clever imitation of reveille, which to him meant a good feed of hay and bran at the yard stables.

It is an old trick the animal had picked up in the army.

THE SILVER QUEEN CONTEST.

The executive committee for the golden jubilee celebration has everything moving along in fine shape and the great event will equal if not exceed the rousing carnival of six years ago. The voting contest for the silver queen will be opened Monday morning and will be open to all young ladies. The contest will be in charge of John Wade, Harry James and Or McNeil and the votes will be 5 cents each. The votes will be counted every Wednesday and Saturday evening and the contest will close at 8 o'clock on the evening of June 15.—Virginia City Enterprise.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

Three cute Japs in "Toymaker's Dream" night from the flowery kingdom. Eagles' pavilion, May 28.

STOCK MARKET

Montana was the only southern Nevada stock that advanced yesterday, the rest remaining inactive, or declining. As it was the advance in Montana was only a point. Extension was a heavy loser, being quoted at 8 points less than the quotation of the previous day. Tonopah Mining lost 2 1/2 points. Belmont also declined a point.

Goldfield Consolidated fell away 15 and was quoted on the closing at \$7.85. bid. Fraction declined 6 points, while Florence lost 2 1/2.

The following quotations are from the reliable brokerage firm of H. E. Epstine:

| Tonopah District. | |
|----------------------|------------|
| Tonopah Mining | \$7.07 1/2 |
| Montana | .71 |
| Tonopah Ex. | .52 |
| MacNamara | .24 |
| Midway | .25 |
| Belmont | .82 |
| North Star | .03 |

| Valley View | .04 |
| Miscellaneous. | |
| Pitts. Sil. Pk. | .57 |

BOOM NOW ON VICINITY OF ALTURAS

H. B. Van Ethen, who returned to Carson from the northern part of the country several days ago, reports a boom is on in the northern part of California and that thousands of people are rushing into that section to attend the opening of a vast tract in the vicinity of Alturas.

Thirteen thousand land contracts have been sold by a land syndicate in the section, each bringing in the promoters \$200. The contracts call for between five and one thousand acres, the tracts being distributed by a lottery scheme. Each contract gets the holder a tract of land and the size thereof will depend upon the luck of the holder of the contract.

Eight autos are conveying people from Lake View, Oregon, into Alturas, and thousands have gathered there to be present at the distribution. While there Van Ethen disposed of an option on the controlling interest in the Pitt River Coal company, of which he is a heavy stockholder, and received \$6000 payment on the first installment of the option price. He says that the section is on the boom and that mere people are rushing in than ever before in its history.—Carson Appeal.
